

If you have any of these symptoms, visit your GP. Lymphoma can be treated, so act now.

Lymphoma

action 

A lump in your neck, armpit or groin?

Feeling worn out for no reason?

Losing weight but don't know why?

Itching all the time but don't know why?

Drenched in sweat during the night?

Every 27 minutes someone is diagnosed with lymphoma, the UK's fifth most common cancer.
