“
I was able to update my knowledge and increase my understanding of lymphoma management.

"There's a plethora of new data coming out every year on lymphoma and it's a great time to take two days away where we can think about what these results mean and how to integrate them into our clinical practice for the benefit of patients." **Dr Graham Collins, course organiser.**

Learning outcomes

Completion of the course should equip participants in the following areas:

- The principles underpinning diagnostic and therapeutic modalities as applied to lymphoma in all its subtypes
- An understanding of practical considerations when prescribing immunochemotherapy and radiotherapy
- To apply the most appropriate diagnostic techniques and therapeutic interventions to individual patients with a lymphoma diagnosis
- A thorough training in material which may be covered in professional exams e.g. FRCPath

Course fees include:

- hot lunch on both days
- all refreshment breaks
- dinner on 25 June (advanced booking only)
- course pack
- end of course quiz

About the organisers

Dr Graham Collins is a Consultant Haematologist and lymphoma lead at the Oxford Cancer and Haematology Centre and Principle Investigator for a number of early and late phase studies. He is also the chair of the UK NIHR Hodgkin study group and T-cell working group.

Dr Toby Eyer is a Consultant Haematologist at the Oxford Cancer and Haematology Centre with a specific interest in lymphoma and CLL. He is a member of the Low Grade lymphoma subgroup. He has a Diploma in Medical Education and a MD doctorate in early phase lymphoid clinical trials.

Lymphoma Action is the only UK charity dedicated to supporting people affected by lymphoma, the UK's fifth most common cancer. We've been providing in-depth, information and support for over 30 years, helping thousands of people affected by lymphoma. Our mission is to make sure no one faces their lymphoma alone. Working closely with our team of medical advisors we provide educational events and resources for healthcare professionals, supporting them to deliver expert care and management for their patients.
