Lymphoma Management Course

Monday 29 - Tuesday 30 June 2020

Sultan Nazrin Shah Centre, Worcester College,
1 Walton Street, Oxford OX1 2HB

What can you expect from the course?

This intensive 2-day lymphoma training course will provide a comprehensive overview of the diagnosis, treatment and management of lymphomas with seminars delivered by expert medical speakers. This course is ideal preparation for professional exams and will also provide opportunities to meet and network with colleagues from across the UK and share case studies.

Topics include:

- Principles of diagnosis
- The rise of CAR T-cell therapy
- CLL
- Hodgkin lymphoma
- Indolent lymphomas (including mantle and follicular)
- Primary CNS lymphoma
- Aggressive lymphomas (including Burkitt, DLBCL and peripheral T-cell)
- The real impact of a lymphoma diagnosis
- Lymphoma TrialsLink clinical trials database

Invited speakers include:

Dr Graham Collins, Oxford

Dr Cathy Burton, Leeds

Dr Helen Parry, Birmingham

Dr Rifca Le Dieu, Barts

Prof Andy Davies, Southampton

Dr Wendy Osborne, Newcastle

Chris Hatton (dinner speech)

Dr Toby Eyre, Oxford

Dr Manil Subesinghe, London

Dr George Follows, Cambridge

Dr Chris Fox, Nottingham

Dr Kate Cwynarski, London

Dr Matthew Ahearne, Leicester

Dr Fiona Miall, Leicester

“
I realised during this course how I'd improved, and that a deep level of knowledge is needed to give the right amount of treatment.”

Who should attend?

This course is ideal for:

- specialist trainees wishing to gain a deeper understanding of lymphoma;
- clinical nurse specialists and advanced nurse practitioners; and
- consultants.

“
It was helpful to share practice and see what other centres are doing.”

“Lymphoma is a fascinating disease, but it’s complicated and developments are happening at break-neck pace. It is important for all of us who look after lymphoma patients to listen to data, and discuss the optimal ways of managing patients in the UK today. This course has a great faculty of speakers from all over the UK, and is presented as lectures, breakout sessions, and informal case discussions. Our aim is to disseminate good practice and consider how we can improve outcomes for all of our patients.” **Dr Graham Collins, course organiser.**

Learning outcomes

Completion of the course should equip participants in the following areas.

- The principles underpinning diagnostic and therapeutic modalities as applied to lymphoma in all its subtypes.
- An understanding of practical considerations when prescribing immunochemotherapy and radiotherapy.
- To apply the most appropriate diagnostic techniques and therapeutic interventions to individual patients with a lymphoma diagnosis.
- A thorough training in material which may be covered in professional exams e.g. FRCPath.

Course fees include:

- buffet lunch on both days
- all refreshments during breaks
- dinner on 29 June (advance booking only)
- course information pack
- access to presentations after the event

Early bird rate (until 31 March): £320
Standard rate (from 1 April): £350

About Worcester College

Situated in the heart of Oxford, the college boasts 26 acres of award-winning gardens and wooded grounds, with a lake, orchard and sports field.

The college sits at the junction of Beaumont Street, Walton Street and Worcester Street, with the railway station a 10 minute walk away, and bus and coach station over the road.

The course is in being held in the stunning Sultan Nazrin Shah Centre.

About the organisers

Dr Graham Collins is a Consultant Haematologist and lymphoma lead at the Oxford Cancer and Haematology Centre and Principle Investigator for a number of early and late phase studies. He is also the chair of the UK NIHR Hodgkin study group and T-cell working group.

Dr Toby Eyre is a Consultant Haematologist at the Oxford Cancer and Haematology Centre with a specific interest in lymphoma and CLL. He is a member of the Low Grade lymphoma subgroup. He has a Diploma in Medical Education and a MD doctorate in early phase lymphoid clinical trials.

Lymphoma Action is the only UK charity dedicated to supporting people affected by lymphoma, the UK’s fifth most common cancer. We’ve been providing in-depth, information and support for over 30 years, helping thousands of people affected by lymphoma. Our mission is to make sure no one faces their lymphoma alone. Working closely with our team of medical advisors we provide educational events and resources for healthcare professionals, supporting them to deliver expert care and management for their patients.
