

Thank you for considering leaving a gift to Lymphoma Action in your Will

Every 26 minutes someone in the UK is diagnosed with lymphoma – over 20,000 people a year. It is the fifth most common cancer but for most, diagnosis is the first time they've heard of it.

We're here to make sure that no one has to face lymphoma alone. We have over 35 years' experience providing expert information and wide-ranging support to thousands of people affected by lymphoma.

Whatever the size of your gift, your legacy will make a difference.

Do something wonderful and leave a gift in your Will

With your help, we can continue to support people affected by lymphoma – not only those diagnosed, but friends, family and carers too.

How to leave a gift in your Will

You'll want to make sure that your loved ones are taken care of first, but you may also decide that you'd like to leave a gift to a charity such as Lymphoma Action. We are extremely grateful for any gift left in a Will.

There are three main ways you can leave a gift in your Will to support people affected by lymphoma:

A cash gift: you can choose to give a fixed amount of money, known as a pecuniary legacy.

A percentage of your estate: you can choose to leave a share of what is left in your estate after you have provided for your family and friends, known as a residuary legacy.

An item or items of value such as jewellery, artwork, buildings or land, including investment shares, known as a specific legacy.

Leaving a residuary gift is a great option because it means that you don't have to change your Will later if your circumstances change.

Whichever type of gift you choose to leave, you have to include our charity name, address and charity number to ensure that the legacy is valid.

You can help us support more people like Jeff by leaving a gift in your Will

In 2015 I was diagnosed with mantle cell lymphoma. I had been feeling really ill for a couple of months.

My consultant handed me a Lymphoma Action booklet on high-grade non-Hodgkin lymphoma and told me to read the sections on mantle cell lymphoma and stem cell transplants. The information helped me understand what would happen. It was absolutely accurate and reliable.

The stem cell transplant was the lowest point for me. I was in hospital for 23 days. I lost six stone, I lost my hair, I felt weak and was struggling with fatigue. Gradually my energy started to return little by little.

I find the Lymphoma Action Support Groups invaluable, along with their events. I refer to the charity's website and Lymphoma Matters magazine to keep up-to-date with developments.

I explain my relationship with Lymphoma Action as that of a trusted friend – someone who I can rely on to be open and honest with me about my condition and to support me in any way they can. Lymphoma Action have helped me feel positive about the future.
